Please use this tool when you are decoding Moore messages and guidance from your readings. Sometimes there are messages right in our faces that we are not conscious of because they seem very obvious. Use this resource to get more familiar with the linguistic side of Tarot and it's interpretations.

### Reading 4 Stagnation or Illness

#### Instructions

There is no sure way to determine what you will resonate with or expose when you are reading energy for yourself or others, even when you ask for specific clarity. Heaviness, illness, and death are all likely to show themselves but it is up to us to know when they are present and how to properly identify the energy. During class we will go through ways of delivering the interpretation of stagnation or illness.

### Counting Cards

#### Instructions:

Learning to use numerology and basic arithmetic can create Moore clarity during your reading.

#### Counting Rules

Things you should consider before counting cards:

- The cards must 1 - 10 in Swords, Cups, Coins, or Staffs.
- The cards must be of the same element.
- Kings, Queens, Knights, and Pages are exempt from the counting rules.
- If the number 10 card is first then subtract.
- If the number is less than 10, remember you can only add numbers to create 10 for it to apply.
- If 10 is the first card, subtract
- If less than 10 is the first card, subtract
- The difference is always the heaviest energy, most important, primary person, or the focal energy of the reading.

#### Example A:

Since 10 is the first number, subtract.

10 of coins   3 of coins   2 of cups

$$10 - 3 = 7$$

7 of coins is patience, investments, boredom, stagnation, and reminiscing on what you have developed.

#### *Orisha Sevyn's Interpretation of Reading*

A Taurus, Virgo, or Capricorn is feeling insecure due to the amount they've invested without seeing a return. Either this person was stagnant or took entirely too long to

create positive motion forward. If there was a recent dismantling of this relationship, then there is patience required before the union can reconnect. Either there is a need for more security, discipline, resources, monetary gain, or experiences needed to increase the chances of a balanced union.

### Example B:

3 of coins    10 of coins    2 of cups

Since 3 is the first number, you can use the number 7 (of coins) to help guide the reading.

### *Orisha Sevyn's Interpretation of Reading*

Financially, if you've been seeking an opportunity to increase your monetary gain then patience is required before you are able to feel secure within your Divine Masculine and Divine Feminine energies.

OR

If you are in a third party situation, someone is being patient and thinking of ways to further invest in the connection of their desire to fully secure and commit. There could be some issues with someone's self worth or with their contentment with their career or financial situation.

OR

There is a business partnership or community that is seeking more resources or opportunities to develop and secure the foundation. In order to come into complete Divine Union with each other, spend more time investing in mutually beneficial energies and experiences.
